

# New England Telehealth Consortium

---

Healthcare Connect Fund

**Dedicated Internet Access**

**Request for Proposal**

RFP-3031

**This RFP contains internet services contracted in 2023. As USAC has yet to release funding we are requesting these services again in this RFP.**

## 1. Statement of Purpose

- 1.1 Established by the Federal Communications Commission's ("FCC") Report and Order released December 21, 2012 (FCC 12-150), the Healthcare Connect Fund is a Universal Service Fund program, authorized by Congress and administered by the Universal Service Administrative Company ("USAC"). This Request for Proposal ("RFP") seeks services to be provided pursuant to the Healthcare Connect Fund.
- 1.2 The New England Telehealth Consortium ("NETC") is a regional healthcare consortium in northern New England comprised of over 300 healthcare providers. NETC was formed in 2007 in response to the FCC's Rural Health Care Pilot Program and was the recipient of \$24.6m in funding commitment, the largest single award through the pilot program.
- 1.3 NETC is comprised of both rural and urban locations, which allows the consortium to meet the needs of patients at any location within the network, even if those patients have to travel to an urban location for specialized care.
- 1.4 NETC operates a six-state redundant IP/MPLS private network across t states, providing private network services and commodity Internet connections for participating healthcare providers.
- 1.5 In addition to the existing NETC network infrastructure, participating healthcare systems often require additional private and public network facilities that are interconnected with the primary NETC network. These additional network facilities are eligible for subsidy under the Healthcare Connect Fund.
- 1.6 This RFP seeks pricing for Dedicated Internet Access for New England Telehealth Consortium, who will be the billing entity associated with this RFP.

- 4.13 Responding Vendor shall provide a written project management and implementation plan. NETC desires that the network buildout be completed within 60 days of receipt of the USAC funding commitment letter.
- 4.14 Based on the required interaction process with the FCC and USAC, it is not possible to determine a definitive project start date – as it is dependent on approvals and posting where NETC has limited control.

- 4.15 Each Responding Vendor must name the project manager that Responding Vendor will assign to the project along with a description of the project manager’s qualifications.
- 4.16 Responding Vendors are encouraged to provide professional references from similar projects, including: contact name, mailing address, phone number, and email address.

- 4.20 All materials submitted in response to the RFP become the property of NETC. If there is any concern about confidentiality, mark the appropriate pages of your response “Confidential.” NETC will attempt to honor all reasonable requests for vendor confidentiality.
- 4.21 The Responding Vendor shall comply with all local, state, and federal laws and regulations related to the performance of the contract to the extent that the same may be applicable.
- 4.22 A Proposal may be rejected in whole or in part if it limits or modifies any terms and conditions and/or specifications of this RFP.
- 4.23 By responding, the Responding Vendor states that the Proposal is not made in connection with any competing Responding Vendor submitting a separate response to the RFP and is, in all aspects, fair and without collusion or fraud.
- 4.24 Any and all information provided to vendors by NETC or its sites, is considered to be proprietary information and must be used solely for the purpose of preparing the proposal and is not to be released outside the Responding Vendor organization without written permission from NETC or its sites.
- 4.25 Responding Vendor shall list their experience with the FCC Rural Healthcare USF program and process.

- 8.3 Proof of policies shall be provided to NETC with proposal.

## 9. General Network Requirements

- 9.1 NETC invites Responding Vendors to bid on the whole network or individual sites, services, and/or facilities.
- 9.2 NETC prefers that services be delivered over technology that provides for symmetrical bandwidth, except where specific requests for asymmetrical bandwidth may be noted.
- 9.3 Internet Services offered should be capable of supporting IPv4 and IPv6 and should include static IP addresses, as necessary and justified by each participating HCP.
- 9.4 Fiber (or equivalent) may be jumpered at any distributions point as necessary. Vendor will identify and document any re-transmitting or monitoring equipment, in the fiber (or equivalent) path.
- 9.5 Proposals must include fiber (or equivalent) path routes, route length, and transmission path length.
- 9.6 Bandwidths listed for each particular HCP may indicate multiple bandwidth increments. The first (**bold**) is the minimum requirement. If a carrier is unable to meet the requirement cost-effectively, it should respond with pricing for the maximum bandwidth it can provide.
- 9.7 Responding Vendor shall provide their operational expectations for the following network metrics, with the anticipation that these network metrics will become the basis for a Service Level Agreement to be negotiated with the Selected Vendor:
  - 9.7.1 Network Availability: Expressed as a percentage (in the form of **##.###%**).
- 9.8 Site and Service Substitutions. Responding Vendor shall allow for Site and Service Substitutions pursuant to Appendix D, 47 C.F.R. § 54.646. The Responding Vendor shall allow NETC to add sites and/or upgrade, change, or relocate services through the length of the contract-term without having to rebid.

- 10.4 Jitter: Expressed in milliseconds between any two HCPs
- 10.5 Network Availability: Expressed as a percentage (in the form of ##.###%).
- 10.6 Response Time: Expressed in terms of initial trouble report response time in minutes and on-site response time in hours.
- 10.7 Planned Network Maintenance: Please indicate the standard notification Responding Vendor provides to customers for planned network maintenance. Responding Vendor should describe their standard network maintenance window.
- 10.8 Escalation Procedures: Responding Vendor should provide NOC initial point of contact and trouble escalation procedures.
- 10.9 Security Incidents: Responding Vendor shall list any programs and procedures in place specifically for monitoring and resolving security incidents.

Responding Vendor should state the outage intervals and the refund amounts. For example, if service were unavailable for 30 minutes, state the refund amount. If service were unavailable for an hour, state the refund amount.

## 12. Miscellaneous Fees

- 12.1 Responding Vendor shall state the Universal Service Fund fee or percentage if applicable. If applicable, Responding Vendor shall define the charge and describe how it is calculated.
- 12.2 Because NETC obtains federal subsidies on costs identified through the RFP process, it is critical for the Responding Vendor to provide an accurate estimate of all costs that may be incurred by HCPs, including non-recurring costs, monthly recurring costs, taxes, and fees that may apply.
- 12.3 The Responding Vendor should define those charges and describe how they are calculated so that NETC can include all anticipated costs in the subsidy request under the Healthcare Connect Fund program.

### 13. Evergreen Contracts

- 13.1 NETC wishes to maximize the opportunity to obtain Evergreen contracts that result from this RFP; therefore, the following provisions should be included in final contract language:

The Responding Vendor shall allow the Billing Entity to add sites and/or upgrade, change, or relocate services and/or bandwidth. This language permits the billing entity to make network changes without going to competitive bid.

- 14.1 New England Telehealth Consortium shall be the billing entity.
- 14.2 Responding Vendor shall describe their capability to provide for duplicate electronic or paper billing.
- 14.3 Reimbursement for network services must comply with Healthcare Connect Fund rules and procedures, and the terms of payment must accommodate USAC billing and payment timeframes. Initial payments are contingent upon delivery of service.

The selection will be based on all factors listed and may not go to the lowest price proposal if price is outweighed by a combination of other features and factors in the winning Responding Vendor’s proposal.
- 15.2 NETC reserves the right to select proposals that, in the sole judgment of NETC, most nearly conform to the specifications set forth herein, will best serve the needs of NETC and its participants, and provides the most cost-effective means of producing those results.
